

In this program assignment, there are 3 videos to watch. You are to do the same program that is done in the videos.

Watch the 3 videos, there are 3 videos about creating using classes in Python. They have to be in order.

Watch the videos and type in the program. Make sure you run the program without any errors. If you get errors, go back to the video and check what you have typed in to what is in the video.

NOTE: be careful with indent, comma and underscore

When done, show the code and demonstrate the program

Also, make a copy of the program, you will need the copy for the next program assignment.

Here are the links to the videos:
